Who we are

The IFMRS is an international, non-profit federation of musculoskeletal (MSK) research societies, covering all forms of MSK conditions, from osteoarthritis to rare conditions, and all aspects of research, from basic to clinical.

Our Purpose is to promote excellence in the field of musculoskeletal science, in order to improve the prevention and treatment of all musculoskeletal conditions worldwide.

What we do

- We provide a space for easily accessing and sharing key knowledge in MSK science
- We work together to advance MSK education across the world
- We work in partnership with others to raise the profile of MSK and MSK research
- We promote an open, inclusive and collaborative way of working across the MSK spectrum and internationally, amplifying the voice of our member organizations and spearheading global initiatives
